Masks A Choice

Comments *

Please make masks a choice for our Children and Teachers. Other school districts, like Roseville, are setting a great example as to how School Districts are in charge of these decisions and do not have a 'law' to abide by. Please consider doing the same for our schools.

As a Mom with a 5yr old, 3yr old and 8m old I can tell you with certainty that a childs response and ability to learn social queues and communication with masks present is halting them. While my TKer does not argue or fight the masks - he it not learning social skills and communication like he should be. This is not a fine example of what education is. Please let's do better.
