We need masks in our schools!

Comments *

The Delta variant is wreaking havoc among the unvaccinated in the US. Children under 12 are not yet able to access the vaccine, leaving them especially vulnerable. Without being able to rely on the vaccine, adults must do everything possible to keep them healthy, including wearing masks. My children, ages 5 and 6, understand this very straightforward concept, and have no issues whatsoever with wearing masks at school. I cannot send them to school with other unvaccinated children without masks. Please keep our children safe.
