Children's mask mandate

Comments *

To all board members, I am writing as a concerned parent who is flabbergasted at the idea of removing the mask mandate for our school aged children. As a parent of an incoming kindergartener, who has NO VACCINE OPTION currently, masks are the only thing helping keep covid somewhat at bay. My 6 year old had no problems wearing his mask in class last year (tk) and in fact would sometimes wear it all the way home from school without a complaint. It didn't hinder his education, cause him any stress, or made it impossible to show emotions because he was wearing it. What it did and will CONTINUE to do is help make him and our family feel comfortable enough to send him to school and protect him as much as physically possible against an incredibly scary virus that has killed millions of people. With the delta variant running rampant and the vaccine for children still not available, the only safe option for our children is to KEEP THE MASK MANDATE ACTIVE AND ENFORCED. Why would anyone want to risk their children's safety this far into a pandemic with the virus becoming more contagious and affecting children more than the previous versions? My child and our family would rather wear a mask, to keep everyone as safe as possible, until a better option is actually valid. They can breathe just fine, they will learn just fine, they will be just fine, but only if MASKS ARE MANDATORY. Thank you.
