

Livermore Valley Joint Unified School District

Climate Literacy Resolution

Responding to Climate Change through Education

Resolution No. 014-24/25

Claire Gresham, Shrish Premkrishna, Thaarak Sriram, Alexander Pepper

Presented on October 15, 2024

Why a Resolution is Needed

As future caretakers of our planet earth, the youth of the Livermore Valley Joint Unified School District are increasingly concerned about the challenges faced from impacts of climate change.

Why a Resolution is Needed (cont.)

To be prepared for this uncertain future, students need to graduate as climate literate members of society.

- Well-rounded in the topics and manner of the climate and environment,
- Capable of holding critical and respectful conversations regarding climate change and the environment,
- Capable of teaching climate change topics and applications,
- Capable of applying their knowledge and skills to real-world applications and decisions.

Why a Resolution is Needed (cont.)

Greater understanding of:

- The sources of climate change are of paramount importance for the students of the Livermore.
- The actions needed to reduce greenhouse gas in the atmosphere are of paramount importance for the students of the Livermore.
- The adaptation approaches that are just and equitable are of paramount importance for the students of the Livermore.

Why a Resolution is Needed (cont.)

Prioritization of K-12 climate change education will provide students the opportunity to create an educational environment that successfully prepares Livermore students for the climate change challenges ahead.

Thank you for your consideration of this Resolution
