Children's Mask Mandate

* Comments

Good Afternoon Board Members,
California children should absolutely not be wearing masks at school any longer. Death involving Covid mortality rate for children under the age of 18 years old is 0.0007%. California just hosted the Super bowl while our kids are still being subjected to consistent mask wearing all day. Masks are making their respiratory system susceptible to bacteria. If parents see fit, they can continue to send their children in masks but mandating such unhealthy requirements to all healthy students any longer is not only hazardous but ABUSE. I am requesting the Livermore school board begin considering these accommodations for students immediately. Who is liable for health complications caused emotionally or physically from these unlawful mask mandates imposed on our students?? At what point do we as parents, teachers, staff and school board distinguish mistakes were made and are continuing to be made at the expense of our children?

Sincerely,

Lacey Dawson
