Terri,

I was referred to you for help with obtaining instructions to remove our son, Jaxyn Thomas, from the Livermore Valley Joint Unified School District since we have decided to homeschool him this year. Is there a form? I heard perhaps an affidavit of some sort to switch him to home-school status. Please advise.

Jaxyn was enrolled at Sunset Elementary School for Kindergarten. We are disappointed he will not attend Sunset like his two older sisters, as well as several cousins and myself and husband. However, we must do what is in the best interest of his well-being. Forcing a mask over his mouth goes against our ethics and standards of care. It will cause harm to him academically, socially, and his overall health. By the way, he has been in preschool with no mask since June of 2020 - he and his classmates have done very well with normal school practices and have remained healthy.

* * I have CC'd Keliy Bowers and the School Board so they are aware I have followed up from my last email to them. Not a single one of them responded back to me. I am gravely disappointed by their lack of response. My husband and I have served this school district and the community in many ways, and find their silence both unprofessional and disrespectful.

My apologies that you have to be subjected to hear of our disappointments that you had no responsibility in. Thank you in advance for your help in removing our son from the school. We await your direction.

Warm regards,
Nichole & TJ Thomas

Nichole
