Subject \*

No mandates for Livermore Students on Masks and Covid Vaccine

---

Comments \*

COVID vaccines should NOT be mandated in K-12 schools. These vaccines are authorized for emergency use only, and are experimental. The long-term side effects are not known. The decision of vaccinating children should be left up to the parents.

Mandating masks, quarantines, testing, is all discrimination, and ruining the long term physical and mental health of our children. This is criminal and communism! You should be ashamed!
