Masks in school

Comments *

Hello - i wanted to voice our opinion the subject of whether or not our schools should have a mask mandate this fall. I feel that we should follow the guidance of the health department, which is advising that everyone mask indoors (as our whole family does, vaccinated or not) as well as any unvaccinated people (kids 12 and under aren't eligible yet so they are all unvaccinated) to mask when around others. I believe our schools should follow the guidelines setup by the state/county health departments as they have the most knowledge on this subject. I know my kids will be masked in class regardless of their vaccination status this upcoming school year as i want everyone to remain safe and healthy. Doing away with masks mandates has led to the Delta varjant spread, and makes our kids and staff more vulnerable to contracting Covid-19. It's a simple and effective way to stop the spread.
