Good morning LVJUSD Board Of Education,

I am well aware of how people have been speaking out against masking and stirring up a lot of negativity at our School Board Meetings. This is a little message for you to know that we students really appreciate you for taking care of our health and safety.

Thank you very much for keeping the masks policy indoors, because even though we may get tired of them by the end of the day, we wear them only for our safety and protection. The masks ensure that we don't spread germs or diseases during this pandemic. As a student myself, I have seen many people be out from covid, I am glad, everyday, that we wear these masks, because if we didn't, I would have probably already been tested positive for it.

Masks in many ways keeps us safe, thank you for taking a stand for us students, we really appreciate it. Just know that every time you take a stand for us, there re thousands of students and families being grateful for it.

Have a good day,

Gina.
