Please give our kids the choice to wear a mask

Comments \*

To the people that I count on to educated my son in a healthy environment, I am the proud mother of a little kindergartener at Smith school. My son spent most of age three & all of age four wearing a mask at preschool through the Las Positas child Development Center. My son is currently experiencing significant struggles with social cues in school. He does not know how to read his peers emotions because they are hidden. If he does something that makes a peer uncomfortable, he doesn't know until it's gone too far. His peers cannot read his emotions either which has now begun to show emotional damage. My son is struggling with making friends. He has stated for the first time this week that he hates school. He would rather lay in bed with his cats. He does great academically, or did. That is starting to fade because he's so stressed with relationships at school. God forgive me if this is inappropriate, but my five year old told his teacher that he wanted to go home and kill himself just last week. These masks have already done more emotional damage than the covid-19 virus. I am a healthcare worker, single mother and fulltime student, so I respect safety, education and everyones mental health. Please stop! I am not worried about a virus killing my baby, I'd keep him home if so. I'm worried about masks killing my baby!!! Give our children the option!
