LVJUSD Board and Superintendent,

Hi! I'm the parent of a Junction K-8 student (an outstanding school, by the way). I just wanted to let you know we are very, very concerned about covid and going back to school. While my son is eager to be in school, see friends and "go back to normal," I don't hear anything reassuring coming from the CDC or the CA Department of Ed regarding school and student safety.

I would like to ask you to keep in mind that, even vaccinated families like ours, we're extremely worried about the spread of covid and the devastating effects. We're fully informed about the reduced risk to vaccinated people, but as long as we are below herd immunity (which Livermore, Alameda County, the Bay Area And California are), covid is still thriving.

Please consider vaccination requirements for attending school for any age group eligible for vaccines, requiring masks, and continuing distancing/ small cohorts, to help protect our community.

Remember, we are still in a pandemic. Though many are pushing to end all restrictions, it's simply not safe. Thank you!

Sincerely,
Lisa Duncanson
