Support of Masks

Comments *

Our number 1 job as the adults in our children's lives is to keep them safe. Without a vaccine available to protect elementary students, masks are our best weapon to protect them against the Delta variant. The mantra of "let them breathe" suggests that perhaps the parents who chant it are not using masks correctly as there hasn't been one incidence of a child suffocating due to a mask. Perhaps they are confusing wearing a mask with the effects of Covid. If parents' decision to leave their children unmasked only impacted their own children, the conversation would be different. However, their decision impacts every other child and adult in the school community. Their decision puts my kids at risk, and our friends' kids at risk, and our neighbors' kids at risk. Anti-maskers don't have that right. Please trust the people with the science degrees and keep our kids as safe as possible in school.
