**NOTE:**

Please read the following as my comment from this publication:  
 " The pandemic then brought on physical isolation, ongoing uncertainty, fear and grief. Centers for Disease Control and Prevention researchers quantified that toll in several reports. They found between March and October 2020, emergency department visits for mental health emergencies rose by 24% for children ages 5-11 years and 31% for children ages 12-17 years. In addition, emergency department visits for suspected suicide attempts increased nearly 51% among girls ages 12-17 years in early 2021 compared to the same period in 2019. So I ask you board members why do you insist on continuing to harm our children because you don't have the courage or respect to give us choice?????????Answer me?????
