The Covid shot, you all call a vaccine, should NOT be mandated at school. Your Science that you pretend to listen to, has told you this shot does not prevent infection or spread, but it has been verified to cause life altering side effects. Enough is enough!

These masks that you require on our children, should be a choice. Your Science that you pretend to listen to, has told you these masks our children wear, do not prevent spread, but it has been verified to cause mental health and breathing issues. Enough is enough!

These tests that you require, should be banned from use. Your Science that you pretend to listen to, has told you these tests are not accurate, but you continue to divide, discriminate and quarantine the students. Enough is enough!

It's time for you to start listening to your own Science and not the Teacher's Union or the media driven fear mongers. They can absolutely still wear a mask and get as many shots as their heart desires. But, for those students who don't want it, should not be forced to get it; especially, not from LVJUSD. We want choice!

It's time to stop hiding behind your masks and your closed meetings and do what is right for our children!

Jamie Blake
