Dear Livermore school Board, I have 3 children that grew up in the fine city of Livermore. Our family has lived here 25 years , I grew up in the valley , went to Amador High school and have called this town home for many years. I have also worked in the Bay Area as a Registered Nurse for 40 years in many different hospitals, one being Childrens Hospital Oakland for 15 years. My last job before retiring was with a company helping LLL employees recover from illnesses from radiation exposure. I have seen much suffering in my life. What I am seeing in our country is unprecedented . This virus has divided us in many ways and the crises has been used to create problems instead of solve them. Mandates do not solve problems . Parents want to choose what's best for their children. I learned that early on as a pediatric nurse, always listen to the parents . They know alot more about their kids than you do , even if you think you are more "educated". You cannot win against parents. Instead , you must work with parents , they really want and need your help. As far as vaccines, I gave my kids all the vaccines but this is a new mRNA vaccine so is still in the experimental phase. If you want to be in the experiment it's your choice but to mandate others is not wise. As far as masking kids, that has always been a joke where I worked, nearly impossible and useless. Maybe it make you "feel" better but it's like trying to stop a mosquito with a chain link fence . Sorry but that's the data(ie. Stephen Petty- an environmental expert on masks) The children are being traumatized for life by these masks. We are raising a fearful generation instead of a brave and courageous one . Don't do that. And you should know by now that the CRT / BLM agenda is backed by Marxist ideology. Just follow the money trail. Also I don't believe talking to elementary children about their sex life is appropriate. If teachers feel entitled to do that , I question their motives. Parents are still the best advocates for their children. When the state starts to get between parents and their children except for actual abuse you have a big problem and parents will fight for their children in all cases. Please, let's all work together to get back to serving our children of Livermore for both of our futures. These children will grow up and remember how we treated them, whether we respected them, cherished them, and helped them to grow up with virtues of love, kindness, purity, faith , courage, and hope.
