Mask mandate

Comments *

Good Morning,

Thank you for all the hard work and difficult decisions that have had to be made over the past year and a half through this pandemic. I know it couldn't have been easy. I believe decisions were made according to safety and following the science as it evolved. I felt safe sending my daughter back into the classroom last spring because of the way it was handled. We're looking forward to a return again the fall. I was pleased to hear masks would be mandated in school, especially given the fact that young children, including my second grader and my toddler at home, can't be vaccinated yet. I recently learned there is a vocal group trying to get this changed and it concerns me. Across the country we're seeing an increase in cases. The Delta variant is far more contagious and I worry if we don't take the best safety measures we have, then we face further shutdowns and a possible return to virtual learning, which so many of us don't want to see, including any parent that is against a mask mandate. The teachers, staff, administrators have worked so hard and dealt with so much, all with a love of educating our children in mind the whole time. We are eternally grateful for that. Please, let's give them and our students the best chance at a successful and safe school year by requiring masks in school, at least as it is currently recommended by the CDC. As things evolve, I trust that the district will continue to evolve the recommendations and guidelines. Thank you very much.
