Note:

Please give a copy of this to all School board director trustees and those who make the decisions to continue this abuse on our children. I'm furious that you continue this abuse. Today's Statewide school walkout should show you that you failed to represent all the people as you cater to one view of the fearfull. Your actions have cause my family pain and suffering. You will be responsible for this. I want a statement from all of you that you have received this message and what your stance is. Recent legal findings show that you have the choice to make the decision to allow masks or not. Stop selling fear and stop trying to control our children This is America, act like americans not tyrannical communists.

Mr. Moreno

URGENT FAX MESSAGE!

Dear Superintendent and School Board Trustees,

When does this end? I need you to tell me when you believe we will end restrictions like masks, quarantines and testing on our children.

We're told our kids have to wear masks until they're all vaccinated to keep them from spreading the virus, but now the CDC just admitted¹ that those who have been vaccinated:

1. Still get infected.
2. Have the same amount of virus as those who are unvaccinated, and
3. Can likely to transmit the virus as easily as those who are unvaccinated.

But the biggest takeaway from this news is not just that we should stop treating vaccinated people different from unvaccinated people. It's that we can finally admit that the virus isn't going away, and that restrictions like masks are pointless. Amesh Adalja, an infectious disease expert at John Hopkins, stated:

"And to what end are we wearing masks for? COVID is not a disease that can be eradicated or limited, and we will always have cases. The goal was to make it a manageable respiratory illness, and it is so in many places where enough high-risk individuals have been vaccinated."²

We're told our kids have to wear masks because they are at risk from COVID, but the data shows their risk is less than from other respiratory viruses like influenza:

1. The CDC estimates 332 children have died from COVID-19 in 18 months.³
2. The CDC also estimates 434 children died from influenza during the 12 month 2019-20 flu season⁴ and 600 children died from influenza during the 2017-18 season⁵ more deaths despite a widely administered vaccine and lower case rates.⁶
3. The New York Times found children are about 10 times more likely to die in a car accident than from COVID.⁷
4. The Financial Times found children at less risk from COVID-19 (0.0002%) than vaccinated adults.⁸

So please explain why are we forcing our children to wear masks, kicking them out of school for weeks and testing them for dead virus when they have no symptoms to avoid a virus no worse than influenza?

We're told they must wear masks to slow the spread of COVID-19, but numerous studies show that schools without mask requirements for children had case rates just as low^{9 10 11} or even lower¹² than schools which did have mask requirements.

Have you read these studies? Have you asked the California Department of Public Health (CDPH) why, of all the safety measures they recommend – symptom screening, ventilation, spacing, hand hygiene and testing – the *only* one they *require* is the one with the least evidence to support it? Do you wonder why at least 40 states in the US don't require masks in school?¹³ Or perhaps you remember that California was 50th in the US in reopening schools,¹⁴ so you already know that California does not follow the science.

So again, our question to you is when will these restrictions end? CDPH says kids must wear masks even if there are 0 community cases and 100% vaccination rates. For them, *this will never end*. Your job is to tell them that it's over and not engage with them in this pointless war against a virus that will never go away. We need you to fight for our kids to get back in school in an environment conducive to learning by ending these unnecessary requirements for masks, quarantines and testing in school.

SchoolBoard September 21 2021.

Good evening, Board, and superintendents,

I read somewhere Fear does not stop death it stops life

And worrying does not take away tomorrows troubles it takes away today's peace.

You have all robbed us of our peace with your imposed fear mandated policies. You have robbed our children of their joy and caused them fear and anxiety and set back scholastically many with these mandates including those with disabilities.

Fear and Paranoia has caused elected officials to make decisions in a state of paranoia. You are all guilty of allowing this. Masking against ones will is abuse. Child abuse. Separating kids, shaming them, and insinuating that they are a disease when in fact they are not sick is abuse. Pushing for test, asking parents if they are vaccinated is abuse. It's abuse in the name of perceived safety. Separating them from friends and shaming them if they don't wear a mask is abuse. How do you not see that? Or would you rather just blame someone else and say we are following the experts. Well, you know what, I'm the expert of what is best for my child. We are demanding choice NOW!!!!

I heard Ann White in one session say, you know we don't have a choice. I'm here and the many people here tonight are telling you... yes you do have a choice and yes, we need choice NOW. Your lack of courage and your closed ears and fear are not allowing you to process this information.

You are only allowing one way view to appease those fearful folks rather than give parents the choice to do what they think is best for their child. My message to those that are scared.... Stay home forever masked up with your gloves and your shields and your hand sanitizer.

You are all violating our rights, and we will hold each one of you liable for damages. Your actions have caused me and my family grief, depression, and anxiety. You have been notified. I will be sending you my love letters soon certified mail to make sure you can also read my message. That message is we want CHOICE NOW!! I emailed you but only had one response.

ON September 30th Let them breath will have an emergency order hearing. I hope this madness stops. You spent more money on dividers, plexiglass, and a mix of social distancing covid garbage rather than invest it into tools, students and educational items. What a waste of money and time. Great American Education! What a joke. Please..... I'm complaining because I'm paying for this garbage.

Your days of imposing and enforcing tyrannical foolish unproven methods of "Safety" are numbered. I ask for your resignation today because you have failed to represent us all, and to represent the American values and rights you swore an oath too. If you don't have courage and you don't value freedom, then just resign today because you are doing us all a disservice. If any of you in the crowd today also agree, please also ask them to step down and find another career or hobby.
