Mask Mandate

---

Comments \*

Dear LVJUSD School Board,

COVID vaccines should not be mandated in K-12 schools. These vaccines are authorized for emergency use only, and are experimental. The long-term side effects are not known. The decision of vaccinating children should ALWAYS be left up to the parents, and parents alone. As stated in recent reports, articles, news stories, etc., we ARE coming out of this pandemic and things are starting to slowly move forward, in a "normal" manner again. If our state leaders, along with tens of thousands of sports spectators can gather for events together in a shared space unmasked, then our children should be able to be in classrooms with 30 or so kids or at lunch with their peers, unmasked. This mandate is completely unnecessary.

Thank you.

Lisa Martinez
