Subject \*

Masks

Comments \*

There has not been one document of proof that proves the Covid-19 is a virus, but there is plenty of proof that keeping people from their normal lives -without masks and other mandates -is continuing the situation and making people more sick.

This is a parental choice! Mandates are not laws, and it is illegal to use them as such!

If the school district doesn't want to keep losing students, then do your scientific research, educate yourselves on the reality and truths of Covid, and leave the decisions to the parents where it belongs.
