We have reached the time when the school district and school board members must come to terms with the reality of Covid-19 becoming endemic. Our children have sacrificed too much these last two years. I call upon our school board members to put our children's education first rather than continuing to hinder them with protocols that did very little to stop the spread of Covid. Many schools across the country have moved past Covid-19 restrictions and it is time that the Livermore School District follows. Masks should no longer be required and should be a parental choice. We need to move forward with our pre-pandemic lives and accept that Covid is here to stay. If California can host the Super Bowl with over 70k people attending, mostly maskless, we can give our children their freedom back. Let THEM breathe!!
