Dear School Board Members:

I am sending you this attached letter from the Chairperson and Vice-Chairperson of the Indian Center Title VI Parent Committee. They are concerned that they will not be included in the interview process for the Program Specialist position as they have not heard from anyone in the school district.

It is mandated by the Federal Government that the Parent Committee be involved in the hiring of the Program Specialist. We just wanted you to be aware of this issue with the American Indian Education Program. Thank you so much for your time and effort in helping us.
